Dear Parent/Carer,

Talaxy update

We are pleased to announce that after many weeks of technical issues, we are ready to launch our new homework system called Talaxy. This is a computer software facility that offers parents and carers access to information about their child from the school management information system. You can view information about homework your child is set via Talaxy. All pupils and their parents will have access to Talaxy via their email.

This week teachers are working with pupils to look at the system, showing them how to log in and access their homework, and submit via Talaxy so that they are confident when using the system at home.

As a parent or carer, you can expect to receive an email from Talaxy with a link to click for you to be able to set up your own log in details. This will enable you to monitor what homework your child is being set, as well as (hopefully) teaching them good habits around time management to avoid the 'last minute' panic that some pupils and families experience. Please keep an eye on your email so that you are able to set this up.

Talaxy will go live from **Monday 21st November**, so if you log in before this date you will see that no homework has been assigned to your child as yet.

We anticipate there may be initial set up issues with this new system, so ask that if you do experience any to please email Mrs Whitehall in the office on: whitehall@ryecroft.staffs.sch.uk and she will do her very best to help you as soon as she is able.

Thank you for your continuing support.

Yours sincerely,

Mrs A Grattage
Headteacher
